Languages	PHP, JAVA ,Java Servlet, JSP , Python, C, C#.NET,VB.NET ,XAML ,C++,XML
DBMS	MS SQL Server , MySQL, Postgresql,Oracle
Third Party SDK	Vuforia AR, Silverlight, Telerik Rad Control
Dev Tools	Eclipse, Android Studio,Visual Studio
Mobile	Android
Web technologies	HTML/CSS,Javascript,ASP.NET,PHP,CakePHP,Codegniter,WordPress Platform,Vue.js,Node.js,React.js
Web Server	IIS , Apache
Cloud	Azure Cloud, AWS Cloud
Other	JIRA,Confluence,GitHub,Bitbucket,Redmine,Teams,MicrosoftOffice,Hardware & Networking

■Education

Course	University	Year of Passing	Percentage
Diploma in Electronics & Telecommunication	MSBTE, Mumbai Board	2006	60.96%
B.E. in Electronics & Telecommunication	Nagpur University	2009	64.91%

■ Work Experience

1. WeStyle, Tokyo,Japan（2025年07月～ 2025年12月）

Duration	Project Name	Role Details	Technologies Used	No of Member
July - 2025 to Dec - 2025	EdgeAI Event Processing & Notification System **Description** - Developed a real-time EdgeAI event processing system for stadium monitoring to reduce on-site labor. ・Built FastAPI-based WebAPI for real-time EdgeAI telemetry processing ・Integrated Rakuten AI Mini to generate automatic event summaries ・Retrieved and stored event data in MongoDB ・Implemented FCM push notifications for smartphones and smart glasses ・Added KPI logging for event actions, sizes, and user interactions ・Developed periodic and daily AI-based insight generation Optimized end-to-end pipeline for low-latency stadium monitoring **Client: Rakuten, Japan**	Programmer / Backend Engineer >Coding >Testing >REST API Development	OS:Windows11 Platform: VS Code Language:python12 Framework:FASTAPI DB: MongoDB	25 member

2. Be-Next Technologies（June 2019 / Oct 2024）

Duration	Project Name	Role Details	Technologies Used	No of Member
0ct - 2022 to Oct - 2024	**PARFA Project** **Description** - Prototype Application of Rearrangement to facilitate Analysis(PARFA) Internal web application for visualizing data, automating reports, and enhancing interactive analysis ・File Upload Support for Excel and Image files ・Excel File Parsing and Data	Programmer: >Coding >Testing >UI Development >REST API Development	OS: Windows 10 Platform: VSCode Language:Python9 ,Django,HTML5,CSS3, Javascript(ECMA) React.JS DB:SQLITE Google Teams	5 Members

	Extraction ・Dynamic Network Diagram with Node & Edge Manipulation ・Multi-node Selection and Dragging ・Force-Directed Auto Layout (Repulsion/Attraction Logic) ・Interactive Table and Graph Creation (Bar, Pie, Line) ・Dashboard View Combining Graph + Table + Network ・Exporting ZIP (Image + Excel) ・Flask REST API Integration for Processing Modules ・Django ORM for Database (SQLite) ・Unit Tests using pytest ・Postman for API Validation **Client: Hitachi, Japan**			
March - 2022 to Sep - 2022	**ORACLE BRM API OPERATION** **Description -** Testing,Analyze BRM(Billing and Revenue Management) . Unit Test · Combined test . Test Specification Document Creation . Functional Document Creation . Table Definition Document Creation **Client: iDEA, Japan**	Programmer: >Coding >Testing	OS: Windows 10 Platform: VSCode API Test Tool : SOAPUI Language:Python8 DB:Oracle Server : DASS	25 Members
July -2021 to Feb - 2022	**Electricity Application Development** **Description -** Create REST API with aws lambda handler. ・Unit test (pytest) · Combined test . Creation of various materials **Client: BFT, Japan**	Programmer: >Coding >Testing	OS: Windows 10 Platform: VSCode Language:Python8 and 9 DB:PostgreSql Cloud : Aws Cloud	5 Members
April - 2021 to June - 2021	**Solar Inverter IOT development** **Description:**Basically,this development took data (power, voltage, current) from Solar Inverter and sent the data to the cloud screen page. **Client: Century Yarks, Japan**	Programmer: >Coding >Testing	OS: Linux Debian 9 Platform: VSCode Design: Html,CSS,Javascript Language:Embedded C DB:PostgreSql Protocol : Modbus PCS : Enewell SOL 2 Web Server: NodeJs Protocol :Modbus	3 Members

July - 2020 to Mar - 2021	**Development of parking lot reservation system** **Details:** This is an IOT development app for parking reservations that sends and receives messages between AZURE CLOUD and ARMADILLO GATEWAY. **Client: Hitex, Japan**	Programmer: >Designing >Coding >Testing	OS:Mac air 10 Platform : Netbeans 11 Armadillo Gateway Design: Vue.js Language: Java Service : Microsoft Azure DB: Sql Server Web Server:NodeJs	5 Members
June -2017 to Feb - 2018	**Order Management system development** **Details**: This is a project to fix the internal management system. that modify the data from table, view, store procedure of sql server database and then test to see if the data is correct. **Client: Softbank, Japan**	Programmer: >Designing >Coding >Testing	OS:Windows 10 Platform:Eclipse Design: JSP, XML Language:Java Servlet, JSP DB:SQl Server WebServer:Apache Tomcat	25 Members
July - 2019 to Aug - 2019	**Development of mobile camera app** **Details:** This is an IOT app. It is an application that uses the Garmin sensor like Heartbeat sensor and bike sensor, you can connect the camera and bluetooth and you can see the person's Heartbeat and BikeSpeed on the overlay screen of the camera. **Client: PCI Solution, Japan**	Programmer: >Designing >Coding >Testing	OS:Window 10 Platform:Android Studio Design:xaml Bootstrap,javascript Language:Java DB: MySql Web Server:Apache	6 member

2. Infoz Software Solution (July 2016 / May 2019)

Duration	Project Name	Role Details	Technologies Used	No of Member
Dec- 2018 to April - 2019	**WaySahara - Taxi Booking App** **Description:** This is Taxi Booking App Which very much similar to Ola and Uber App.We have build this app using Native Java for Android using Android Studio . **Client -** Waysahara	Programmer: >Designing >Coding >Testing	OS:Mac air 10 Platform:Android Studio Design: Core Java,XML Language:PHP 7.0.32 Framework - Codeigniter DB:MYSQL 5.7 Web Server:Apache 2.4.34	7 Members

Feb - 2018 to Nov - 2018	**Agriculture IOT Project** **Description:** basically This is Automation Agriculture project where we used sensors and hardware To sense the levels of water,soil etc using Internet of Thing **Client -** Infoz Solution	Programmer: >Designing >Coding >Testing	OS:Mac air 10 Platform:Android Studio PLC program Hardware - Mode Bus Design: Core Java,XML Language:PHP 5.6 Framework - Yii2 DB:MYSQL 5.7 Web Server:Apache 2.4	5 Members
June -2017 to Feb - 2018	**Tvarak - Sales Accelerator** **Description:** Tvarak is most affordable and efficient with an all in one sales process accelerator which will help corporations to monitor entire business on real time from anywhere anytime. Website - http://tvarak.com/ Play Store - https://bit.ly/2vvXSGM **Client**: Infoz Solution	Programmer: >Designing >Coding >Testing	OS:Mac air 10 Platform:Android Studio Design: Core Java,XML Language:PHP 5.6 Framework - Yii2 DB:MYSQL 5.7 Web Server:Apache 2.4	5 Members
Jan -2017 to May- 2017	**Metrika CRM** **Description:** The basic idea of this application is manufacturing CRM. This will help you to manage entire manufacturing steps within a quick time. **Client**: Infoz Solution	Programmer: >Designing >Coding >Testing	OS:Window 10 Platform:WAMP Design:HTML5,CSS3, Bootstrap,javascript Language:PHP 5.6 Framework- Yii1 DB:MYSQL 5.7 Web Server:Apache 2.4	6 member
July-2016 to Dec 2016	**Daily English(Speakwell)** **Description:** This is mobile application, basically this is Educational CRM project , in that you can learn daily English. Play store - shorturl.at/oqtxE **Client**: Speakwell	Programmer: >Designing >Coding >Testing	OS:Window 10 Platform:Android Studio Design: Core Java,XML Language:PHP 5.6 DB:MYSQL 5.7 Web Server:Apache 2.4	5 Members

3. **Atlink Corporation Japan （June 2015 / April 2016）**

Duration	Project Name	Role Details	Technologies Used	No of Member

June-2015 to-April -2016	**Ryokin System :** **Description:** Ryokin system is sales management team software development project. It shows sales reports in dashboard & display sales achievements & progress data with graphical representation. **Client**: AtLink Corporation	Programmer: >Designing >Coding >Testing	OS:Window 7, Platform:PHP 5.3 Design: HTML5,CSS3,Bootstrap, javascript Language:PHP DB:MYSQL 5.5 Web Server:Apache 2.2	10 Member

4 **Shinten Systems Private Limited（Aug 2011 / May 2015）**

Jan-2015 to May 2015	**Restaurant Management Systems :** **Description:** Restaurant Management Systems is Restaurant Financial Management team software development project It shows reports monthly and weekly and generate report as pdf form and send email automatically. **Client** : Amrapali Restaurent & Tandoor, Japan	Programmer: >Designing >Coding >Testing >Configuration	OS:Window 7, Platform:PHP 5.3 Design: HTML5,CSS3,Bootstrap,javascript Language:PHP DB:MYSQL 5.5 Web Server:Apache 2.2	4 Member
Nov-2014 to Jan-2015	**Amrapali Restaurant Website :** **Description:** Development of website for Indian Restaurant in Japan. **Client**:Amrapali Restaurent & Tandoor, Japan URL: http://amrapalijapan.com/	Web Developer: >Designing >Coding >Testing >Configuration	OS:Window 7, Platform:PHP 5.3 Design: HTML5,CSS3,Bootstrap,javascript Language:PHP DB:MYSQL 5.5 Web Server:Apache 2.2	3 Member
July-2014 to Nov-2014	**Safety Specialities :** **Description:** Development of website for safety solutions, consultancy, services supply & Fire Safety Equipments. **Client** : Safety Specialties, India **URL:** http://www.safeindus.com	Programmer: >Requirement Understanding >Designing >Coding >Testing	OS:Window7, Platform:Wordpress4.4 Design: HTML,CSS Language:PHP5.3 DB:MYSQL 5.5 Web Server:Apache2.2	2 Members
June-2013 to June-2014	**ShinAR +** **Description:** This is free android app based on Augmented Reality (AR) Feature for e-commerce. - View 3D virtual product - Move 3D object in 360 Degree - AR experience on Marker - **Client**: Shinten Systems	Programmer: >Requirement Understanding >Designing >Coding >Testing	OS:Window7, Platform: Android 4.4 Dev Tool: Android Studio Language: Java Third Party SDK: Vuforia	3 Members

Feb-2013 to May-2013	**Nobel Prize Petition** **Description:** Nobel Prize Petition software development project to Creating Petition for to give Nobel Prize to Dr. B. R. Ambedkar. **Client** :AIM,Japan **URL:** http://www.aimjapan.org/	Programmer: >Requirement Understanding >Designing >Coding >Testing	OS:Window 7 Platform:PHP 5.3 Design: HTML5,CSS3,Bootstrap,javascript Language:PHP DB:MYSQL 5.5 Web Server:Apache 2.2	3 Members
Oct-2012 to Feb-2013	**City Office Reporting Tool:** **Description:** Windows Application Development project which issue address and family certificate as a excel report in Nagpur city office. **Client**: Nagpur Development Trust	Programmer: >Requirement Understanding >Designing >Coding >Testing	OS:Window7, Language:VB.NET DB:SQL Sever 2008 3rd Party: Telerik Rad Controls	5 Members
Nov-2011 to Sep-2012	**ANIMAL 3D CG:** **Description:** To show Animal 3D images on web site. Viewer can rotate Image at 360 deg. & can see any part closely by using zoom in, zoom out functionality **Client**: AtLink Corporation	Programmer: >Requirement Understanding >Designing >Coding >Testing	OS:Window7, Design: XAML, Silverlight 4.0 Language:ASP.NET DB:SQL Sever 2008 Web Server: IIS 3rd Party: Telerik Rad Controls	5 Members
